

IMPROVE EFFICIENCY WITH AUTONSENSE CANISTERS

- AutoSense SmartScan and SmartChip allow canisters to be moved in and out of the packager easily, based on need, regardless of the location within the designated drawer and without pinning
- ATP software direct the user when to add or remove Smart Canisters based on the order formulary
- Available in increments of 16 to any existing ATP® or ATP® 2 Series machines – one drawer or the entire machine
- ATP and RTP™ utilize AutoSense SmartScan canisters, while ATP 2 uses AutoSense SmartChip

AutoSense gives you the ability to swap lesser-used canisters with ease

SmartScan

AutoSense SmartScan can be used in the ATP® Legacy and RTP™ Series

SmartChip

AutoSense SmartChip can be used in the ATP® 2 Series
